**Subject:** list of permits needing fact sheets  
[Permits Needings Fact Sheets.xlsx](#)

Hi Jon,

Here is the list of permits we need the Fact Sheets for to assist with the analysis. If there are any facilities listed that recently had the permit renewed, or are in-process and meet the end-of-pipe assumption, we do not need those Fact Sheets because they won't need additional analysis. Also, if Christian ends up doing this and sees any permits where the TMDL WLA was written to meet the numeric nutrient criteria at end-of-pipe, those can be excluded as well.

Let me know if you have questions.

Thanks!
